Keeping your Neighborhood Clean

Gusty Santa Ana winds can stir up problems for the collection of neighborhood trash and recyclables. Containers are frequently blown over and the materials inside end up strewn throughout nearby streets.

You can help keep your neighborhood clean on windy days by doing the following:

- Avoid placing trash and recycling out on windy days.
- Be sure to place your trash into a large trash bag and tie it closed before placing in the barrel. This will make clean-up efforts easier should the barrels tip over.
- Bag any excessive trash and recyclables that do not fit in your barrel and accumulated bags will be removed by your waste hauler on the next scheduled collection day.
