# MASTER FEE SCHEDULE

## Fiscal Year 2024-2025

The City of Rancho Cucamonga can impose fees under the authority granted by California Government Code Section 66000 et. Seq. Fees are allowed to be imposed in order to recover costs associated with the provision of specific services benefiting the user, thereby reducing the use of General Fund monies for such purposes.

The City of Rancho Cucamonga has established fees by authority of the Municipal Code, City Ordinances, City Resolutions, City development/funding agreements, and State and Federal statutes. As a matter of routine, City departments revisit fees at least once per year to ensure that small adjustments can be made over time to keep up with operational and construction costs. Certain fees are adjusted annually by applying a fee escalator approved by prior resolutions, to provide greater consistency and streamline the annual fee update process.

The annual adjustments to the fees will be effective on the first day of each fiscal year, July 1, as set forth in fee resolutions, and staff will update the Master Fee Schedule accordingly.

Fees included herein have been adjusted in accordance with previous City Council action and are effective as of July 1, 2024. Fire District fees will be adjusted beginning Fiscal Year 2024-25.

Cost index factors applied:

Consumer Price Index (CPI) at 4.3%

Employment Cost Index (ECI) at 4.6%

Engineering News Record (ENR) at 11.6%

# FIRE DISTRICT

Effective July 1, 2024, fees will be automatically adjusted annually by the percentage change in the Employee Cost Index (ECI) for state and local government workers, total compensation (not seasonally adjusted), during the 12-month period ending on December 31st of the immediately preceding calendar year, as published by the United States Bureau of Labor Statistics.

The adjustment will apply to fees directly related to Fire District staffing, including facility and equipment rental fees, fire prevention fees, and fire construction fees. Adjusted fees will be rounded up to the nearest whole dollar.
