

# SIGN PERMIT CHECKLIST

Per Development Code Section 17.74.030, a sign permit shall be required prior to erection, relocation, alteration, or replacement of sign, unless otherwise exempted by this chapter. A sign permit shall not be required for general maintenance of existing signs or the replacement of the sign face (including message) when the area of the sign is not being changed and a building permit is not required.

SECTION 1:	Filina Re	auirements
------------	-----------	------------

	1.	. A Building Sign Permit Application through our Online Permit Center at <a href="https://www.cityofrc.us/onlinepermitcenter">https://www.cityofrc.us/onlinepermitcenter</a> .  Note: this application will be found under the Building & Safety category in the Online Permit Center.							
	2.	Signed <i>Property Owner Declaration Form</i> (attached). Please also upload the signed Property Owner Declaration Form to your online application.							
	3.	Colored sign package (see Section 3) to be reviewed by staff for completeness and accuracy. Please follow the instructions for PDF Formatting Requirements for EDR Submission (see attached PDF guidelines) and upload the plans to your online application.							
	4. California Energy Code Title 24 Sign Lighting Certificate of Compliance for illuminated signs.								
	5.	5. Filing fees (see Section 2).							
			Filing Fees Department Fee List for most current fees.						
	Sig	ın Permit*							
			d regardless of if the proposed sign is within an approved Uniform Sign Program. Additional fees will be required if a equired for the scope of work. Contact Building & Safety for more information at 909-477-2710.						
SE	C	<b>ΓΙΟΝ 3</b> :	Contents of Sign Package						
The Sign	item pac	ns listed bel ckage shoul	by are considered a minimum. Additional information may be necessary for clarification during the review process. d be submitted as one PDF file. We will not accept separate plan sheets.						
	Α.	Building	ı Wall Signs:						
		<b>1</b> .	Detailed Site Plan, drawn to scale, shall include the following:						
			☐ Project site area including dimensioned property lines.						
		I	All site improvements including, but not limited to, buildings, parking areas, driveways, etc.						
		1	☐ Shade the building where the proposed building signs are to be located.						
		I	Provide the square footage of the building and/or tenant space.						
☐ 2. Building Elevations:									
		I	Accurate building elevations showing building face with dimensions.						
		1	☐ Length of tenant frontage						
			Exact location and placement of the proposed signs.						

# CITY OF RANCHO CUCAMONGA

		3. Detailed Elevations of Signs:		
				Dimensions of proposed signs
				Depth of signs (thickness)
				Letter style, size, materials, and colors of sign copy
		4. Method of illumination and electrical details.		
		5. Method of attachment and structural details.		
<b>□</b> B.	Mon	nument Signs:		
		Detailed Site Plan shall include the following:		
				Project site area including property lines.
				All site improvements including, but not limited to, buildings, parking areas, driveways, etc.
				Public street frontages and improvements.
				Proposed landscaping and irrigation system around the monument sign.
		2.	2. Detailed Elevations of monument sign:	
				Dimensions of the proposed sign and the base.
				Depth of signs (cross sections).
				Letter style, size, materials, and colors of sign copy and the background.
				Full base description including materials, colors, and height.
				Landscape materials around the base of the sign.
		3.	3. Method of illumination and electrical details.	
		4. Structural details of footing and monument structure.		

# PROPERTY OWNER DECLARATION FORM

#### PROJECT INFORMATION Name of Proposed Project: Location of Project: Assessor's Parcel Number: Phone Number: Applicant Name: Email: Address: Type of Review Requested ☐ Certificate of Appropriateness ☐ Landmark Alteration Permit ☐ Similar Use Determination ☐ Certificate of Economic Hardship ☐ Large Family Daycare Permit ☐ Site Development Review ☐ Community Plan Amendment ☐ Mills Act ☐ Specific Plan Amendment ☐ Minor/Conditional Use Permit ☐ Minor Design Review □ Temporary Use Permit ☐ Minor Exception ☐ Major Design Review ☐ Tentative Subdivision Map Development Agreement ☐ Plan Check/Zoning Clearance ☐ Tree Removal Permit ☐ Development Code Amendment ☐ Planned Community ☐ Uniform Sign Program ☐ Entertainment Permit ☐ Pre-Zoning ☐ Vacation of Easement ☐ General Plan Amendment ☐ Public Convenience or Necessity ☐ Variance ☐ Hillside Design Review ☐ Reasonable Accommodation ☐ Zoning Map Amendment □ Sign Permit ☐ Other: OWNER DECLARATION I declare that, I am the owner, I legally represent the owner, of real property involved in this application and do hereby consent to the filing of the above information. Further, by signing, I attest that all individuals and entities with financial commitments associated with the proposed development have been clearly identified as required pursuant to SB 1439. Further, by signing I attest that I can provide proof that I legally represent the owner. Date: Signature: Print Name and Title: Phone Number: Email: Address:

# ONLINE PERMIT CENTER ELECTRONIC DOCUMENT REVIEW (EDR) SUBMISSION REQUIREMENTS

The City of Rancho Cucamonga Community Development Department accepts electronic plans / documents submittal via the City's *Online Permit Center* at https://www.cityofrc.us/onlinepermitcenter for most permit applications.

For questions regarding the electronic submittal process, please email the Planning Department at <a href="mailto:Planning@cityofrc.us">Planning@cityofrc.us</a>

#### **ELECTRONIC SUBMISSION PROCESS**

#### 1. Initiate an Application

To get started, go to the City's <u>Online Permit Center</u> at <a href="https://www.cityofrc.us/onlinepermitcenter">https://www.cityofrc.us/onlinepermitcenter</a> and select "Create an Account" to create a user account. For all planning applications, including Design Review (DR), Conditional Use Permits (CUP), Sign Permits, Minor Design Review (MDR), etc. please select "Planning" and then "Create an Application".

Complete the application per the required fields and follow the instructions to upload plans under "Attachments." The plans should be submitted in a <u>single pdf document</u>. Plans must be scaled and oriented correctly and must not exceed 100 MB. Scanned plans will **NOT** be accepted. Do **NOT** submit individual sheets as separate multiple pdf documents. For large plan sets due to the file size, you may provide separate pdf documents for the different portions of the plans (e.g. architectural, structural, etc.), upload a separate pdf document for each supplemental document type (e.g. calculations, specifications, reports, studies, etc.). For full PDF formatting instructions, please refer to part two of this document beginning on page 2.

Once the application has been submitted, you will receive confirmation and be given a record number. Staff will then be notified that an application has been submitted and will follow their internal workflow to review the application and invoice the applicable fees. If you have not been contacted within 2 business days, please email <a href="mailto:Planning@cityofrc.us">Planning@cityofrc.us</a>.

## 2. Tracking Status of Your Application

All progress on your application and associated plan review can be monitored through the City's <u>Online Permit Center</u> under the "Record Info" tab. When City staff have completed their review of the plans / drawings electronically, you will receive an email informing you that the plans / drawings have corrections required or have been approved.

Checking your application online through the <u>Online Permit Center</u> will provide you with the latest status of your project review. You can check the <u>Online Permit Center</u> 24/7 and we recommend checking online first prior to calling City Hall.

#### 3. Resubmittals

If resubmittals are required, there will be a link located in the "Attachment" section labeled "Resubmit" for you to upload your new plans to the open record in the Online Permit Center. A complete set of any plans/ drawings that were revised must be uploaded, with all revisions clearly marked. Scanned plans will NOT be accepted. Do NOT submit individual plan sheets as separate PDF documents. If any resubmittal fees are due, as identified in the plan review comments or noted as a fees due online, then these must be paid at the time of resubmittal and may be paid by credit card online through the Online Permit Center.

Updated 6/2024 Page 2 of 7

#### 4. Approval

Once all review activities are completed and the project has been approved, the City-stamped permit set of plans / drawings will be available in the *Online Permit Center*.

Applicants are responsible for printing a City-stamped set of plans for use in the field by contractors and inspectors.

#### PDF FORMATTING REQUIREMENTS

Portable Document Format (PDF) is the industry standard for electronic plans. The City of Rancho Cucamonga only accepts PDF files for plan review. PDF files must be properly formatted as described below. <u>Please read the following instructions carefully</u>. <u>Improperly formatted plans can delay the plan review process for your project.</u>

Layers: No multiple layers. Layers must be merged or flattened.

Format: Vector preferred

Resolution: 300 pixels per inch (PPI)

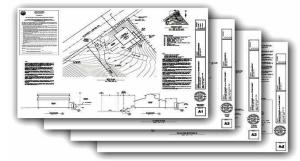

Color Depth: Monochrome (1-bit)

File Size: 1 megabyte (MB) avg. per sheet.

100 MB total

Grouping: Multiple-sheet PDF (single file with

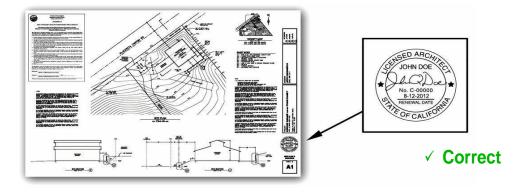

multiple sheets)

plans.pdf (multiple sheets)

**√** Correct

See "Formatting Q&A" on <u>page 4</u> for more information on PDF file formatting and tips on how to create, convert, and merge PDF files. Each sheet of the plans must be <u>sealed and signed</u> by the designer of record. The signature may be applied to the drawing electronically (CCR Title 16, Div. 5, Sec. 411e).

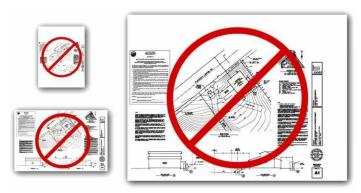

Updated 6/2024 Page 3 of 7

## CITY OF RANCHO CUCAMONGA

All sheets must be consolidated into one plan set up to a maximum size of 100 MB whenever possible. Please consolidate plans to the fewest number of files possible.

Incorrect orientation will not be accepted.

### **FORMATTING Q&A:**

Question: Why does Rancho Cucamonga only accept PDF plans?

Answer: Rancho Cucamonga is responsible for maintaining records of plans and providing the public with access

to them. Files kept in our electronic database must be compatible with a wide range of computer software for storage, viewing, and printing. In addition, the file sizes must be manageable for transfer and for use

by the public and City staff.

The PDF standard is constantly evolving and Rancho Cucamonga will continue to evaluate these

standards as necessary.

Question: Are raster-based PDF files acceptable?

Answer: Yes, assuming they meet the size limitation requirement of no more than 100 MB total. Vector-based PDF

files are typically much larger than raster-based files. However, the City prefers vector-based files given

the ability to scale these files.

Question: How do I combine multiple PDFs into a single file?

**Answer:** There are numerous PDF tools freely available on the Internet, which can be used to merge, rotate, and

rearrange PDF files.

Updated 6/2024 Page 4 of 7

## CITY OF RANCHO CUCAMONGA

Question:

My PDF files are too big. What am I doing wrong?

Answer:

Properly formatted and compressed raster PDF files should not exceed 1MB per sheet. If your files are larger, you may have made one of the following errors:

- Saving the plans as 8-bit (grayscale) or 24-bit (full-color) raster files will drastically increase the file size. Even if the images contain only black and white objects, 8-bit and 24-bit files still contain all of the shade and color data. Plans must be saved as 1-bit (monochrome).
- Uncompressed files are much larger than compressed files. Construction plans contain mostly
  white space. The data required to store this white space can be significantly reduced. When
  converting your PDFs to raster images, be sure to use a form of lossless compression (such as
  LZW). When creating or saving PDF files, remember to specify "compressed."

Question:

How do I convert a vector-based PDF to a raster-based PDF if my file size is too large?

Answer:

The industry standard software for working with PDF files is Adobe Acrobat; however, there are numerous PDF tools freely available on the Internet.

- Step 1: Save the vector-based PDF files as raster images (TIF or PNG). The format of the raster images is important (300 ppi, monochrome). We recommend TIF files with LZW compression.
- Step 2: Convert the raster images back to compressed PDF files.
- Step 3: Merge the individual PDF files into a single multi-sheet PDF file.

Question:

Some raster images are loading slowly in the PDF reader. What am I doing wrong?

Answer:

Transparent raster images require considerable resources to display. Even though the source image is not transparent, your CAD software may be plotting it with transparency (white pixels plotted as see-thru). Be sure to set image transparency "off" before plotting.
